Blended Program Degree Program (4+1) Application Process

Students seeking to apply to the blended BS and MS degree program in Biomedical Engineering must have a minimum 2.5 GPA and have completed 165-180 units (i.e., 2-3 quarters from completing their BS degree).

During the fall and spring quarters, applications are due by 4:00 p.m. on Friday of Week 4 to the Biomedical Engineering Department office, 13-260. Notifications of admission decisions will be made by the second week following the application deadline.

For your application, please include the following items:

- A personal statement detailing your reason for application, qualifications, intended research direction, and prospective thesis advisor (typed, 1-2 pages)
- A completed undergraduate technical electives form for your major
- A completed Working Formal Study Plan (except for signatures)
- A completed Post-baccalaureate Change of Objective form (except for signatures)
- An unofficial transcript
- A list of three (3) Cal Poly professors familiar with your academic performance

Students admitted to the blended degree program must complete their thesis within two (2) years of completing their coursework. Students who do not meet this deadline will be removed from the program.
